About Me

An experienced data professional with 1.5 years of professional experience, skilled in **Python, SQL, Excel (Macros, VBA and Power Query)**, **Power BI and Tableau**, looking for a role to support data-driven decisions and develop scalable analytics solutions.

Core Skills

Programming: Python, SQL, Databricks, PySprak

Data Analysis: Power Query, EDA, Machine Learning, Cleaning, Mining, ETL, Data Modeling, Statistics

Visualization: Power BI, Tableau, Excel (Macros and VBA)

Tools: NumPy, Pandas, Seaborn, Scikit-learn, Streamlit, PostgreSQL, MySQL

Soft Skills: Story telling, Stakeholder Management, Problem Solving, Leadership, Teamwork, English, Hindi

WORK EXPERIENCE

Data Analyst : CreditSea

Mar 2026 – Present

- Developed and maintained Credit Sea fintech dashboards to monitor daily customer interactions, engagement metrics, and operational KPIs for real-time decision-making.
- Built interactive reports and automated data pipelines to improve visibility into business performance and reduce manual reporting efforts.
- Performed advanced **customer segmentation** and behavioural analysis **using SQL and Python** to identify high-value cohorts and optimize targeting strategies.
- Analysed large-scale transactional datasets to design and implement **risk mitigation and fraud detection strategies**, reducing financial risk exposure.
- Led end-to-end loan portfolio analytics, including collections tracking, delinquency metrics (DPD), and outstanding balances to enable data-driven credit decisions.
- **Optimized data models** and queries for improved performance while handling high-volume datasets efficiently.
- Collaborated with cross-functional teams to drive operational efficiency by **analysing 2M+ records** supporting **100+ Cr loan disbursement** with high-accuracy insights.

Data Analyst : Shree Vasu Logistics Ltd

July 2025 – Mar 2026

- Automated company-wise and region-specific **ROI analysis**(including WB), improving decision-making speed and accuracy.
- Streamlined billing processes using Excel Macros, VBA, and Power Query, **saving 3–4 hours** of manual work daily.
- Extracted and analyzed freight and operational data from SAP using **SQL** to support reporting and performance tracking.
- Developed daily operational and ROI reports (KOT, SOT), contributing to a **23%** reduction in per-case transportation costs.
- Monitored P&L for Raipur and Bilaspur depots and optimized vehicle cost analysis, increasing per-vehicle **profit by 7%** and improving budget forecasting.

Education

B.Tech (Computer Science & Engineering)

Govt. Engineering College, Raipur
